by PROVEX

beautifully simple
enduringly stylish
timelessly elegant

italia

A carefully considered range of frameless and semi-frameless shower enclosures designed in Rome by Italian design house Talocci and manufactured in Italy by Provex. Italia's ethos of minimalist engineering produces enclosures of timeless elegance that create the effects of increased space and freedom.

Italia by Provex: simple, safe, elegant.

index

modula walk-in enclosures	p. 4 – 15
elite frameless enclosures	p. 16 – 39
elegance semi-frameless enclosures	p. 40 – 49
shower trays options & prices	p. 50 – 51

The italia range of shower enclosures is suitable for power showers, body jets and steam.

Sealant-free wall junctions.

The rise and fall hinges on the elite and elegance ranges produce a simple, reliable self-closing mechanism, and create the door-opening clearance.

All italia shower enclosures are a generous, minimum height of 1910mm.

All italia shower enclosures are manufactured to European standard EN14428 (incorporating toughened glass to EN12150-1) and carry a no-quibble 10 year guarantee (see page 51).

The Provex patented hinge design on the elite range offers an important unique benefit. It enables, to a far greater degree than any other method, adjustment of the enclosure to accommodate out-of-true walls.

The optional AntiCalc protection enables water to drain more freely, minimizing lather and limescale deposits on the glass. Cleaning will be required less often.

Enclosures from the italia range may be installed without a shower tray, typically in a wet-room location.

Many of the shower enclosures in the italia range are available in various glass finishes.

success through excellence

Provex owes its success to an unfailing adherence to proven design principles. Decades of manufacturing excellence – supported by leading design houses – ensure products of enduring quality and unrivalled elegance.

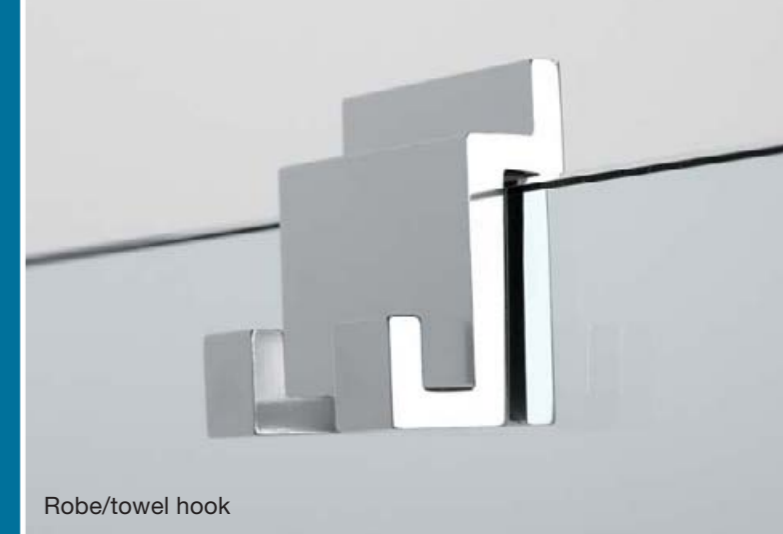

bespoke design solutions

Provex is internationally renowned for the high quality of its shower enclosures. Combine this with an unrivalled attention to detail and you are presented with an option of a unique 'sure-to-fit' shower enclosure. Often this is the only practical and elegant solution to the awkward installation situations frequently encountered in refurbishment projects.

Please discuss requirements with your retailer.

shower trays

Provex shower trays are manufactured from stone resin and are acrylic-capped to give them unsurpassed durability and a superb finish. See opposite for tray sizes and styles available.

low profile

The low profile shower tray has an incredibly discrete profile of just 40mm and its understated sleekness is ideally suited to the italia range of stylish shower enclosures. With the option of a traditional gloss or unique matt finish* available in all low profile tray sizes, it perfectly reflects contemporary bathroom design. The new easy-clean, 90mm rapid-drain outlet allows up to 32 litres of water per minute to be discharged.

*Special order

acrylic-capped stone resin

Available in 'easy-plumb' and standard design with upstands or flat top. All 'easy-plumb' shower trays have an easy-access removable plinth and adjustable feet to compensate for uneven surfaces.

Choose from one of our classic colours to complement your bathroom colour scheme.

Colours available:

easy-plumb with upstand

easy-plumb quadrant with upstand

easy-plumb quadrant flat top

easy-plumb flat top

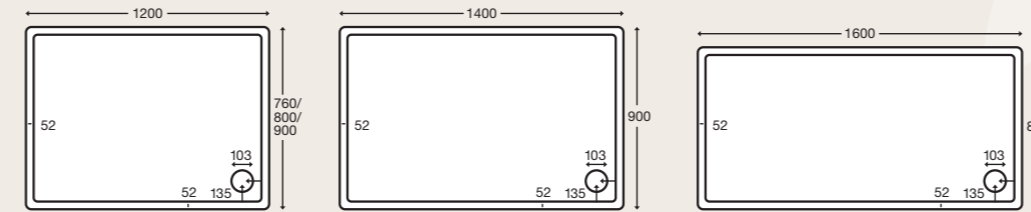

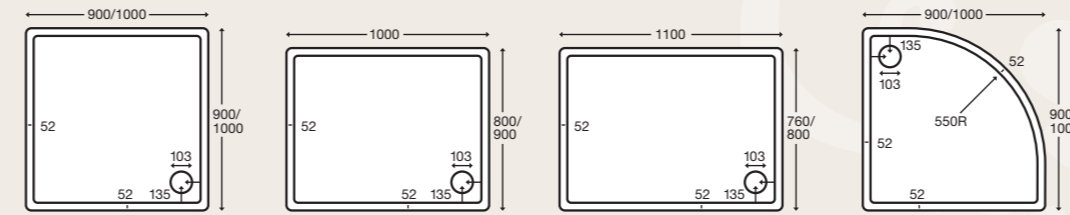

standard with upstand

standard flat top

low profile dimensions

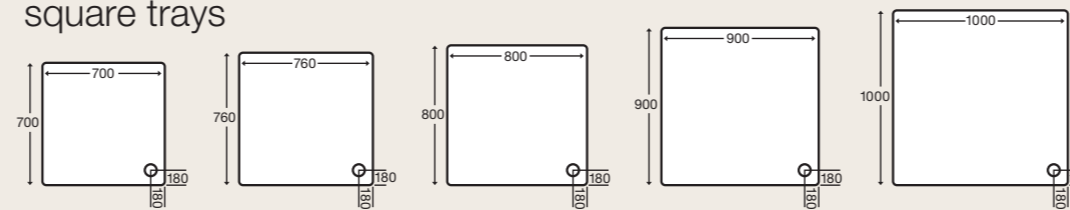

Depth of tray is 40mm +/- 4mm manufacturing tolerance. All measurements approximate. See opposite for prices. All dimensions in millimetres.

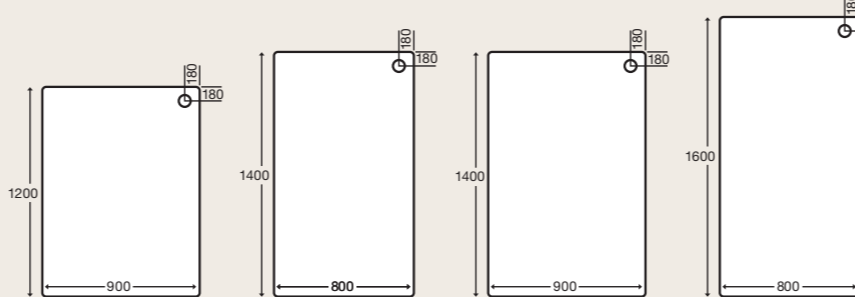

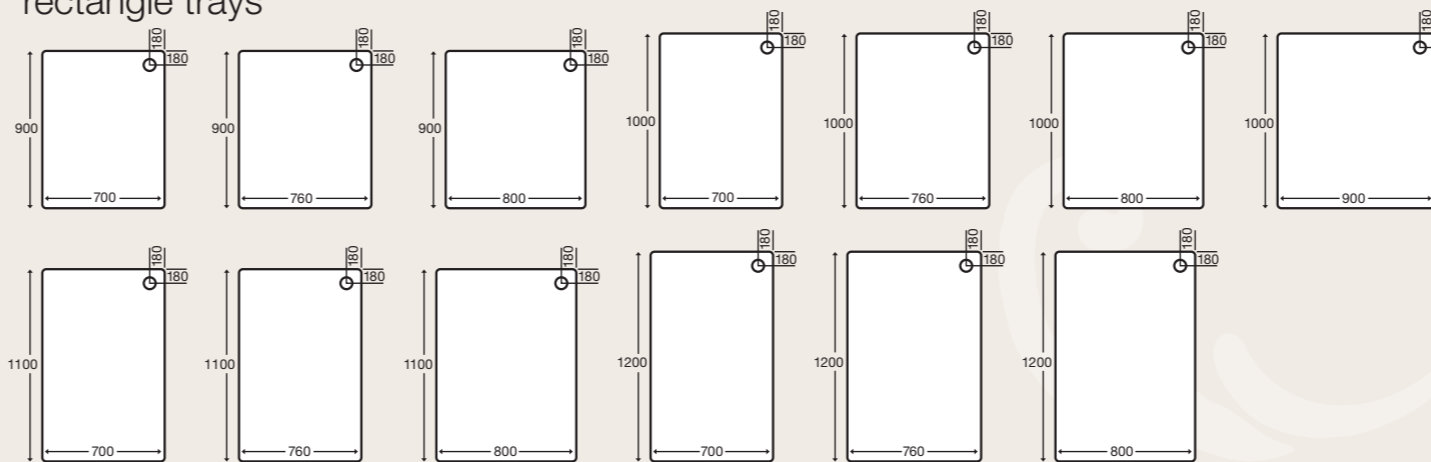

acrylic-capped stone resin dimensions

All trays are available with upstands, ask your retailer for further details. Standard height – 80mm (excluding panel) (all waste positions approximate depending on installation). See opposite for prices. All dimensions in millimetres.

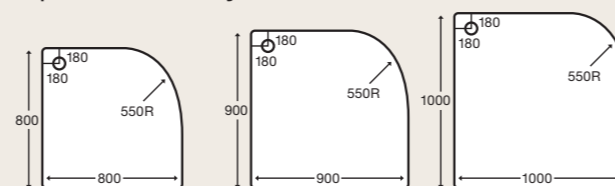

square trays

rectangle trays

quadrant trays

Note: top-access, easy-clean wastes recommended for installation.

offset quadrant trays

Both sizes available in left-hand and right-hand. All offset quadrant trays are 550 radius.

**Only available with upstands.

product guarantee

All italia shower enclosures shown within this brochure carry a 10 year guarantee. However, this does not affect purchasers' statutory rights. This guarantee is subject to proof of purchase and covers manufacturing and material defects only. Incorrect assembly or installation, fair wear and tear, improper use, accidental damage or the application of unsuitable cleaning materials will render the guarantee invalid. A written guarantee is available on request.
